# SOF-INDIVIDUAL FIRST AID KIT

**THE OFFICAL SUPPLIER  
OF THE INDIVIDUAL  
FIRST AID KIT TO THE  
ARMY SPECIAL FORCES  
PRODUCT CODE: SOF-IFAK**

**IFAK INSERT  
SOF-IMAPI**

The SOF Individual Medical Aid Pouch is a force multiplier for the medical operator, placing critical medical supplies at the point of wounding, not in the Medic's aid bag. Strategically mounted on a leg mounted panel with an external front panel rapid-access pocket with a Velcro pull-tab for immediate access to a tourniquet when "seconds count." Internal organizer system safely secures and provides rapid access to a basic load of medical items. Pouch attaches to all existing PALS/MOLLE systems using S.O.TECH's "New Generation" Flex-Tab™ attachment system. Incorporates protected, double-enlarged, silenced rubber-coated zippers with an additional 2-inch protective flap located on the top of the pouch providing additional security. The pouch is also equipped with S.O.TECH's quick-rip pull-tab that can be pre-positioned outside the pouch to grab and pull, immediately opening the pouch when the tactical situation permits. "IFAK" is embroidered on the front flap for easy identification of vital medical items.

# COMPACT INDIVIDUAL FIRST AID KIT

PRODUCT CODE: CIFAK (Fully Loaded)

PRODUCT CODE: CIMAP (Unloaded)

PRODUCT CODE: CIMAP-DA (w/Drop Down Adapter)

**FULL IFAK IN NARROWER POUCH!**

FITS STANDARD U.S. G.I. IFAK CONTENTS

The Compact Individual First Aid Kit is for every soldier who needs more space on his vest. The pouch is only two MOLLE/PALS bars wide yet it holds the entire contents of the Army's official issue IFAK which is four bars wide. It organizes the contents for easy access and proper tool placement. External pocket for quick access to the tourniquet. Officially purchase by a brigade of the 101st Airborne (AA). Can be mounted to a suspension belt hanger strap. Available in ACU and Coyote Brown.

Please call for pricing.
