# X-26 TASER HOLSTER THIGH/ BELT RIG

PRODUCT CODE:  
THATBR

**BHA Included!**

## THE NEED:

With no room on your duty belt where do you carry your X-26 Taser where the electronics won't be damaged or seen, while remaining tactically accessible?

## THE ANSWER:

S.O.TECH developed the X Holster to answer all of the carry questions:

- Ambidextrous design allows for easy armory check out.
- Flap & buckle combination prevent accidental misidentification from lethal weapon holster.
- Fastex® & Velcro® flap provides maximum weapon retention.
- Double loop arrangement allows wearer to mount Belt Hanger Adapter & leg strap for thigh rig configuration, or to leave these off for a duty belt configuration.
- Speed Clip belt hanger adapter (BHA) allows Taser to be left in car when not in use & snapped on in seconds when rolling up to a Taser situation. This reduces clutter on leg, back strain, public view, & opportunities for damage.

## FOAM PADDING PROVIDES COMFORTABLE RIDE.

Foam padded body & flap protect against damage. Padding keeps holster shape & fused buckle aid in reholstering. Reversible leg strap allows for personal preference of buckle position. Foam padding provides comfortable ride. Low profile design prevents hang-ups. Double reload pouches provide security & quick access. Constructed of double layered 1000 Denier Cordura® Plus nylon, National Molding Plastics, strength rated nylon webbing & 138 wt thread. Will provide specs. Strongest manufacture on the market.

## S.O.TECH TECHNICAL SUPPORT.

S.O.TECH provides technical assistance. Just call 800/615-9007 & one of our friendly customer support personnel will assist you.
