# MISSION JUMP PACK

## PRODUCT CODE: MPJ-X

No need to run for your extra gear, S.O.Tech now introduces a fully integrated pack and jump harness system. All the storage and versatility of a Mission Pack combined with the tactical jump capabilities of a standard military H harness. Easy access to a hydration system (over 100 oz.) through both internal or external passage ways. Detachable waist strap, (6) sewn-on external pockets, and zipper-secured drop down pocket virtually eliminates all snag hazards. Mesh drop down compartment ventilates wet gear or adds storage space. Main compartment has a half-length zipper to limit spill out while packing gear. MOLLE capable for attaching additional mission items.

Lowering line attached to carrying handle.

Sewn-in standard military H Harness.

Protective flap, Velcro® with pull-the-dot snaps.

Reinforced Type 8 nylon carrying handle.

Water hydration system is accessible from outside of the pack.

Mission Go Bag (MGB)
