### THE MILITARY MAP SYMBOLOGY

The arrow signifies the automatic rifleman, on the shaft are symbols denoting the modern assault group member. We created Leader, Recon, Less Lethal, Breacher, Medic and Policeman just to name a few. Also included are Media, Casualties and Non-Combatants. Magnet symbols can be written on with erasable markers and magnets can be placed on a sand table or on a magnetic white board where the operational environment can be sketched and movements drawn.

# A troop is injured — you run to and open your trunk — how do you tell which of the packs has a medical kit inside?

*S.O.TECH's identifier patches allow you to Velcro® tag your kit bags and packs according to the mission.*

Trademark and Copyright Protected

*S.O.TECH patches can accept a cord to create a gear bag identifier tag.*
